CHURCH

We see a church that is totally committed to the Gospel of Jesus Christ not defined by a building, structure, religious, or denominational affiliations.

We see a church that is committed to serving the homeless, widows, and orphans and being actively involved in the local community.

We will develop a culture where the people love God and love each other. Where they worship as a unified body of believers and fellowship often.

We see a ministry that functions in the five-fold ministry gifts and where leaders are trained to function in their gifts for the edifying and equipping of the church.

We see a community of faith with multiple buildings, sites, and land that provides resources to address the wholistic needs of its members and the community.
